ABSTRACT:
Ayurveda is the eternal science of life. The goal of Ayurveda is to maintain the health and cure of the diseases. To achieve one such goal of maintaining the health, Dinacharya is one of the means. According to lay man Dinacharya means to follow certain things like waking up early in the morning, brushing teeth etc whereas in Ayurveda along with these things there are different procedures like Nasya, Tambula, Abhyanga, Snana, etc. Dinacharya includes things which are mandatory to follow regularly so as to maintain normal equilibrium of Dosha, Dhatu, Mala and Agni. Practising Dinacharya is easy to understand and implementation of it; For being healthy one should follow the daily regimen which is described in our classics.

KEYWORDS: Nasya, Dosha, Ayurveda, Dinacharya,

INTRODUCTION:
This is necessary to maintain a healthy body, mind, and soul. The Sanskrit word Dinacharya is defined as "the daily routine". Din means 'daily' and Charya means 'practice or routine'. Dinacharya is a Sanskrit word made up of 'dina' meaning day and 'acharya' meaning activity. So dinacharya is a daily routine designed to maintain and connect us to our circadian rhythms or the internal body clock. While Ayurveda has emphasized the importance of a connection with nature for millennia, western scientists are only now beginning to understand exactly how important it is for the body to stay connected to the rhythms of nature. The disconnection from the circadian rhythms is called chronodisruption, It has been linked to a host of health concerns, including poor cognitive function, mood and sleep disorders, diabetes, obesity, daytime sleepiness, reduced school performance, substance abuse, heart disease, and some cancers. Ayurveda tells us that on any given day, there are two cycles of change that exist- the sun cycle and the moon cycle - and they are connected with the Ayurvedic body type or doshas (vata, pitta or kapha). Dinacharya makes us understand the best time for our daily routine like waking, exercise, bathing, meditation, prayer, meals, study, work, relaxation, and sleeping. This is necessary to maintain a healthy body, mind, and soul. The Sanskrit word Dinacharya is defined as "the daily routine". Din means 'daily' and Charya means 'practice or routine'. According to Ayurveda one should follow Dinacharya in order to lead a healthy and disease free life. Ayurveda gives more emphasis on prevention of diseases than treating a disease. Ayurveda in its literature has given detailed rituals or practices (Charya) that one should follow every day to establish the balance of Tridosha in our body, which helps to regulate a person's biological clock and synchronize us to nature's circadian rhythms. Dinacharya is known as Daily routine, the ideal lifestyle for a day explains various duties which systematically and scientifically highlights and explains various duties from one day to the next. Dinacharya helps to establish balance in one's constitution. It also regularizes a person's biological clock, aids digestion, absorption and assimilation and generates self esteem, discipline, peace, happiness and longevity.[1] It starts from waking up in the morning in 10th August, 2020

Bhramhimuhurtha, Ushapana, Mala-MutraVisarjana, Achamana, Dantadavana, Kavala, Gandusha... etc. All life style disorders can be prevented by adopting Dinacharya. Ayurveda is an absolute science of life-style. Ayurveda is the science of life which emphasize on restoration of health of individual than on treatment of the diseases. [2]Pratidinamkarta vyamcharyadinacharya.  

[1] Charya = Acharan / kriya / Activity Whatever activities are completed by an individual from waking up in the morning till sunset is called as Dinacharya. Activities done from sunset till sleeping, is called as Ratricharya. But in practice Dinacharya & Ratricharya both are combinedly considered as Dinacharya. 

**Importance of Dinacharya:** The role of Dinacharya was felt so important by our ancient Acharyas that in all the Brihatrayies they haddedicated a separate chapter for it. Acharya Sushruta explained Dinacharya in the chapter named - Anagatabadhapratishedh = Anagat + Badha + Pratishedha Means to prevent the possible illness it mean, Acharya Sushruta has given stress on Dinacharya to abort the possible illness, and so by Acharya Charaka & Vagbhat.

Activities in Dinacharya
1. Brahmmuhurtejagarana,  
2. Malotsarga vidhi,  
3. Dantadhavana, Jihvanirlekhana evam Aachmana,  
4. Anjana,  
5. Nasya,  
6. Kavalaevam Gandhusha,  
7. Dhoomapana,  
8. Abhyanga,  
9. Vyayama,  
10. Udwartana,  
11. Snana,  
12. Bhojanavidhi,  
13. Brahmmuhurte Jagrana Brahmmuhurt[1]– 14th Muhurt of night, Utthishtejirnajirnenirupayan – ratrikabhojanjirnhua he yanahiiskavicharkarke hi utnachahiye. Calm & quite environment helps in proper prayer study, feeling of happiness & freshness, in Brahmmuhurt Vat remainselevated & it helps in proper defecation. It is considered as the apt time for waking up which isthe fourteenth muhurtha of ratri varies from region to region as the time of sunrise is not uniform through out the world. It is approximately two muhurtas i.e. 96 minutes before sunrise in that region. Period of Brahma Muhurta is an intermittent duration between respiration and photosynthesis in plant kingdom. There will beabundance of nascent of oxygen which easily mixes with haemoglobin forming oxyhaemoglobin reaching to theremote tissues and also boost the immune system as oxygen deficient bodies are highly prone to disease. Also it is the right time for adhyayana (study). late rise from bed induces lethargic mood throughout the day causing inactivity. 

2. Malotsarga Vidhi[1] Two significant things: 
A. Vachamniyamyam by keeping silence with concentration it helps in complete evacuation of stool & urine. 
B. Evacuation should be done when urge is felt. Urge should not be suppressed otherwise it will cause Shirahshoola (head ache), Apanvayurvedhagati, Kartanvatpeeda (cutting type of pain).
Evacuation should not be done forcefully; otherwise it will cause Arsha (piles), rectal prolapsed, anal fissure.

3. Danta Dhavana, Jivha Nirlekhana Evam Achmana: Brush told for Dantdhavana should be of Katu, Tikta, Kashay Ras, and Acharya Sushrut mentioned Madhur Ras additionally. Mouth diseases are caused by mainly Kapha Dosh, so Katu, Tikta & Kashay Ras are helpful to prevent most of the oral diseases.[1] After brushing, powder of Kushtha, Trikatu, Triphala & Trijataka mixed with honey should be applied to tooth & gum. In Vatajaor Pittaja oral diseases Madhura Rasa is used (as mentioned by Acharya Sushruta).[1] After brushing tongue cleaning should be done prevents Mukhadorugandha (halitosis), Vairasya (faulty taste), Aruchi (tastelessness). After washing the mouth, face & eyes should be washed with fresh water or with decoction of Amlaki or decoction of bark of Kshiri Vraksha. Prevents Neelika (blackish discoloration), Vyanga (dark circles), Rakta pitta janyavyadhi, helps improving the power of vision (Chakshushya).

4. Anjana: There are two types of Anjana: - 1. Souvira Anjana, 2. Rasa Anjana.[1] Souvira Anjana has been advised to use daily, it helps in maintaining the health eye & vision, it prevents & cures - Daha (burning), Kandu (itching), Mala (eye debris), Klinnta (watery eye), Vedna (pain) etc. Rasanjana is told to use every 5th or 8th day, at night, to evacuate excessive Kapha Dosa (as eye being a Tejador dominant organ, should be protected from excessive Kapha or kleda).

5. Nasya: There are five types of Nasya: - 1. Navana, 2. Avpeedana, 3. Dhyapana, 4. Dhoom, 5. Pratimarsha.[1] Pratimarsha Nasya has been advised to use daily, usually Anu Tail is used for this purpose. It pacifies the Vata Dosa & gives uctuousness to head & neck region, so it prevents mainly the degenerative disorders of brain & sense organs. It prevents - Khalitya (hair fall), Palitiya (graying of hair), Manyastambha (stiffness of neck), Hanustambha (stiffness of mandible), ShirahShool (head ache), Ardita (facial paralysis), Peenasa (chronic rhinitis) and other Vataja disorders.

6. Kavala & Gandusha:[1] Sneha Gandusha - Prevents Vataja disorders of mouth, cracking of lips, dryness of mouth, Swarbhedha (loss of voice), etc. Kavala of bark of Khadira, Arimed & Kshiri Vraksha - Prevents mainly Kapha disorders, Aruchi (tastelessness), Mukhvairasya (faulty taste), Dourgandha (halitosis), Lalarasrv (excessive salivation), When Gandusha is done with lukewarm water gives feeling of lightness (laghuta) in mouth.

7. Dhoomapana: There are three types of Dhoomapana: - 1. Prayogika, 2. Snahik, 3. Virechnik.[1] Prayogika Dhoomapana is advised to use daily and it prevents disorders of head & neck region which are caused by Vata & Kapha, Shirogourava ( heaviness of head), Shirahshoola (head ache), Kasa, Shwasha, Hikka (cough, dyspnoea), Karna Srava (ear discharge), Nasa Srava (nasal discharge), Netra Srava (eye discharge), Tandra (drowsiness) etc. Smoke should be taken from nose & expelled from mouth - To prevent harm to eyes.

8. Abhyanga:[1] Ushna Abhyanga in Sheeta Ritu & Sheeta Abhyanga in Ushna Ritu, strengthens the body, repairs the regenerate tissue, very good in pacifying Vata, relieves tiredness and many more. Shiro Abhyanga Beneficial for hair, Nourishes sense organs, improves sleep. Padabhyanga strengthens legs & feet, Relieves from senselessness, stiffness, cracks, contraction etc. improves vision and improves sleep.

9. Vyayama: Any kind of activity which brings up tiredness in the body is Vyayama. Time duration for Vyayama is mentioned for those who are strong & takes Snigdha Ahara as “Ardha Shakti.

10. Udwaratan: Massaging with powder (TriphalaChurna, YavaChurna) of Kapha Hara drugs is called as Udwartana it opens up the skin pores & improves complexion, reduces fat, reduces itching & skin eruptions etc.[1]

11. Snana: Fresh water or hot water is used for bathing according to season to maintain hygiene. Hot water is contraindicated for head bath it causes harm to eye & hair. Bath should not be taken without head wash dirt will be kept stuck in hair, feeling of heaviness Bath should not be taken after food it causes indigestion.

12. BhojanaVidhi: Food should be taken when hunger is felt, for healthypeople 2 times of meal is advised, any type of exercise should not be done immediately after food, water should not be taken immediately after food, sleep & sexual activity should not be done immediately after food, full stomach meal should not be taken in night, food should not be taken too late & it should not be heavy, food which are of opposite qualities should not be taken and Tamboola Seana is advised after food,[1] this results in indigestion & formation of Ama.

DISCUSSION:
Ayurveda gives more emphasis on prevention of diseases. Dinacharya has been described in the context of daily regimen. Principle of Dinacharya is more relevant in current era because everybody is in hurry and running according to fast life-style of present time. Even nobody has time even for them self. So, result is emergence of epidemic due to life-style disorders both communicable and non-communicable. This trend of present time cannot be changed as it is demand of this era but life-style can be modified by simple interventions through conduct of Dinacharya. Principle of Dinacharya is basically related with harmonization of human body with environment and this practice basically balances the Doshas which ultimately results in good health. Healthy habits should be included in life-style even in busy schedule also, if a person want to be healthy forever. Few examples are early go to bed and early wake-up, daily prayer and meditation, daily physical exercise, daily oil massage including scalp, ear and feet, bathing, daily use of oily nasal drops, maintenance of body hygiene, take nutritious and balanced diet, proper dressing, select the job with moral and ethics. These points are looking very simple and negligible but play very important role in the maintenance of health and thus prevention of various communicable and non-communicable diseases.

CONCLUSION
Dinacharya plays a vital role in prevention of various disorders which are resultant of improper lifestyle and bad conduct. In this way by following proper regimen assaid by Acharayas we can prevent them and leads healthy and diseases free life. Dinacharya has been described in the context of daily regimen and it combatthe harmful effects of harmful environmental changes at primary level as well as it slow down the irreversible effects. Daily regimen is an important and unavoidable factor accepted in causation of diseases. It is responsible for the various changes which results in manifestation of diseases. Dinacharya is need of current era as various diseases are emerging very rapidly both communicable and non-communicable diseases. Most of them are only preventable. According to Ayurveda one should follow Dinacharya in order to lead a healthy and disease free life.
